

## THE HELP GROUP - UCLA NEUROPSYCHOLOGY PROGRAM

### PROGRAM

This program is an innovative partnership of The Help Group and UCLA dedicated to providing state-of-the-art neuropsychological services for children, adolescents, and adults. In addition, this dynamic program is committed to enriching the field of knowledge through a wide range of clinical, educational, and research endeavors in association with the specialized educational programs of The Help Group.

### PROGRAM OFFERS:

- Neuropsychological assessments
- Learning disability evaluations
- Assessment of cognitive functioning after brain trauma due to accident or medical condition
- Parent consultation and education
- Teacher training
- Educational remediation
- Post graduate training and research
- Professional seminars
- Classroom-based educational consultations

### ASSESSMENT SERVICE

The Help Group-UCLA Neuropsychology Program provides extensive diagnostic assessments for children and adolescents. Assessments of attention, cognitive, and academic issues over a two-day period of assessment. Parents and educators are then provided with recommendations based on a child's individual strengths and weaknesses

### ASSESSMENT SERVICE OFFERS

- Professional seminars
- Learning and cognition
- Auditory processing
- Visual Spatial Organization
- Memory
- Attention
- Motor Functioning
- Judgment and planning
- Personality functioning

### THE FACULTY

Philip Levin, Ph.D., Program Director has an extensive background in child neuropsychology and psycho-educational aspects of learning disabilities. Consultation provided by Paul Satz, Ph.D., UCLA Professor Emeritus and former Chief of the UCLA Neuropsychology Program.
